"DEATH TO ALL VERMIN."

As Spring approaches,
Ants and Roaches,
From their holes come out,
And Mice and Rats,
In spite of Cats,
Gaily skip about.
Bed-Bugs bite
You, in the night,
As on the bed you slumber,
While insects crawl
Thro' chamber and hall,
In squads without number.

IT IS TRULY WONDERFUL WITH WHAT CERTAINTY, Rats, Roaches, Mice, Moles, Ground Mice, Bed-bugs, Ants, Moths, Mosquitoes, Fleas, Insects on Animals, in short every species of Vermin, are utterly destroyed and exterminated by

"Costar's" Rat, Roach, &c. Exterminator,

THE IRISH TENANT AT WILL.

To-night my fire is faint and low,
Outside it rains, and the chill winds blow;
The rain falls loud on the sodden ground,
And the stream runs by with a threat'ning sound.

My heart is heavy; but many a day
Since 'twas light or joyful have pass'd awey;
The sun shines often on field and tree,
But 'tis always cheerless and cold with me.

A dark shape stands on my cabin floor,
Its finger points to the lowly door;
Summer and Winter, in gloom or light,
It frowns before me, by day and night.

I go to toil on my little farm—
It follows on, with its outstretched arm!
In vain I labor, I curse, or pray—
It stands and bids me "Away! Away!"

'Tis the landlord's Notice—that shape of fear,
Renewed, sustained, through the live long year,
Chilling my life blood hour by hour,
With the blighting threat of a deadly power!

When morning brightens the eastern skies,
From a troubled sleep unrefresh'd I rise;
And I know not whether, when evening falls,
I may dare to enter these humble walls.

I dig and plow, but I never know
If my hands shall gather the crop I sow;
And the crop I gather, though good it be,
Brings never plenty or peace to me,

I pour my sweat on the soil like rain,
I coin my blood—for another's gain:
The more I add to the land's rich bloom,
The nearer bring I my threaten'd doom.

My little son, now to boyhood grown,
Has a little garden he calls "his own;"
He has planted saplings and wild flow'rs there,
And he says 'tis safe in his father's care.

My darling knows not how many a start
His prattlings send to his father's heart;
Nor knows the pang that he wakes the while
His mother lists with a sadden'd smile.

My poor pale wife! even now I hear
The landlord's name in her murmur'd pray'r;
And I hear her say, in her high appeal,
"May the Saviour soften his heart of steel!"

Pray, Mary, darling!—pray asthore!
My heart is crushed, I can pray no more;
A fire lights up in my tortured brain,
And the world around takes a crimson stain.

Pray, Mary, darling!—pray on machree!
For your own dear self, and my children three,
My soul is wrapped in a hell-red glare;
I must walk abroad—Let who will Beware!

T. D. S.

Select Miscellany.

Children.

At a public school festival in Boston, the Hon. Robert C. Winthrop spoke as follows:

These boys, I need not say, are the men of the future; and, under God, the masters of the future. The ever moving procession of human life will pass on a few steps, and they will be on the platforms, and we shall be beneath the sod. But today we are not merely their examples and models, but their masters and mentors; and the schools are the studies, in which, by God's help, they may be formed, and fashioned, and shaped as we will. Yes, my friends, not by any idle rappings on senseless tables, but by simply knocking at our own honest school room doors, and asking how many boys and girls there are within, and what is their mental, and physical and moral, and spiritual condition and culture—we may find the revelation of the future, harldly less sure or exact than if it were written in letters of light by the pen of inspiration.

I have somewhere seen it recorded of England's great hero, the late Duke of Wellington, that on some visit to Eton School in his old age, while gazing upon those well remembered scenes of his boyhood, and when allusion had been made by some of his companions to the exploits of his manhood, he exclaimed, "Yes, yes, it was at Eton that Waterloo was won." And not a few of you, my young friends, will one day or other be heard confessing that the best victories of your mature life have been virtually won or lost at school.

And while you strive to fulfil every duty to your neighbors and yourselves, had to advance the best interest of the world in which you live, may you ever look forward with humble faith and trust to the day of which you are just about to sing, when other palms than these mere human triumphs may be seen in your hands, and when, with a multitude which no man can number, you may be permitted to mingle in other and nobler songs than any which can be fully learned on earth!

☞ A wonderful man is John Smith. He can get into more scrapes, on the same day, and in more different places, than any other living man. For instance, witness his exploits of Saturday last: He murdered his mistress in New Orleans; was married in Boston; was feted by the Democrats in Baltimore; got drunk and whipped his wife in Columbus, Ohio; beat Kirk Anderson at a game of "draw" in Great Salt Lake City; robbed a wild cat bank in Wisconsin, and committed suicide in Pittsburg—all on the same day.

☞ Every girl who intends to qualify for marriage should go through a course of cookery. Unfortunately, few wives are able to dress anything but themselves.

Visit to our School.

"Good morning, madam. I came to visit your boys and girls awhile."

"Be seated, Sir. Would you like to hear them sing?"

Of course we answered in the affirmative, when the little ones opened at once their books and their mouths, while the teacher led off in appropriate style.

One bright-eyed little fellow brought us a book to look over while they were singing. We were right glad that he did, for we rather think without the book, we should have known but little about what was sung.

After a short explosion of wind and sound all was still, and the little fellows looked at us for a word of approbation; but before we had time to collect our thoughts, and say what we could in favor of their young effort, which was decidedly good, their teacher had told them that she was ashamed of their singing—ashamed that they could not do any better that morning.

We wish, dear reader, that you could have seen the effect of that word "ashamed;" because the children as well as we knew that their best effort had been put forth, for this reason, if for no other, that a visitor was present, from whom they had expected a word of praise. What could we do? We were as completely annihilated as were the poor children. It would never do for us to get up and say they had done well, and, if they were attentive, would be sure to make good singers. No, this would be contradicting their teacher, and thus lessen her in their estimation. So we, too, had to feel that terrible wounding of the spirit, which ever attends unkind chiding in families and children.

O Teachers, if you could only know how many "young ideas" you have taught to shoot the wrong way, you would level your bows, and turn your arrows in another direction.

Feeling that we could not stay longer in such a depressing atmosphere, we excused ourselves from hearing any of the classes, bidding them "good morning," and stepping outside of the building that our depressed spirits might be re-animated in the bracing winter-morning air. We thought we would truly sympathize with those children who so frequently ask their teachers for permission to go out into the free open air.—*Newport (Ky.) Free South.*

To Preachers.

I have found the following rules to be of much service to myself, and respectfully suggest to my brethren in the ministry the propriety of testing their merits:

1. Resolve to be brief, as this is an age of telegraphs and stenography.

2. Be pointed, never preach all round your text without hitting it.

3. State your proposition plainly, but do not stop long to particularize.

4. Avoid long introductions; but plunge into your sermon like a swimmer into cold water.

5. Condense; make sure that you have an idea, and then speak it right out, in the plainest, shortest possible manner.

6. Avoid all high flown language; quote no Hebrew nor Greek; aim to be simply a preacher.

7. Be honest enough to own that you do avail yourself of help from any source. But in using helps, be sure you never make stilts of them, when your own legs are far better

8. Except the Father's blessing; you are his servant, and can do nothing without it.

9. *Stop when you are done.*

Among the many rules given the preacher, I have found it convenient to adopt the above, as being such as were profitable to me.

And now, my brother, if they will do you any good, you are welcome to them. —*George C. Bancroft.*

HOLD ON DAR.—The Piqua (S. C.) *Register* has the following in a recent issue describing an incident among the slaves:

Quite a revival is now in progress at the African Church in this city. We were present a few evenings since, and witnessed, with much gratification, their earnest devotion, of the incidents we cannot fail to note one; a brother called out in a stentorian voice:

"Who dat praying ober dar?"

The response was:

"Dat's brudder Mose!"

"Hold on dar, brudder Mose!" was the dictum of the former, "you let brudder Ryan pray; he's better 'quainted wid de Lord dan you am!"

Brudder Mose dried up, and Brudder Ryan prayed.

☞ A gallant wag was lately sitting beside his beloved, and being unable to think of anything to say, asked her why she was like a tailor? "I don't know," she said with a pouting lip, "unless it is because I am sitting beside a *goose*."

SAID TOM.—"Since I have been abroard; I have eaten so much veal that I am ashamed to look a calf in the face." "I s'pose sir, then," said a wag who was present, "you shave without a glass."

I Must Die.

Reader are you accustomed to think this as true of yourself as it is of others? You may be in perfect health to-day; but has the thought, "I am mortal," occurred to you? Swift and sudden death has come to multitudes; if it should thus come to you, now are you prepared for it? To-day have you thought of the end for which you were created? Have you remembered that though you must die, the soul will live forever, and that God will give to every man the just reward of his deeds—to the righteous, eternal life; to the wicked, eternal death. Let no care, however pressing, no pursuit, however eager, lead you to forget this truth "I must die"—and "after death the judgment." Says a writer:.

In the giddy whirl of the world, men too little pause to reflect that they are mortal. On and on they delve and toil, strive and contend, criminating and recriminating, throwing their whole souls into the vortex of the world as if it and its objects were worthy to absorb their whole being. Painful object of contemplation! A few more passing seasons, and all who are engaged in the exciting and maddening strife of the world, will, one after another, have silently dropped into the bosom of death, no more to be seen of men, soon to be remembered no more on earth. How unimportant, then, to be disembodied spirit, will appear the trifles which to-day are so much magnified, and which by partial, interested, and selfish views, are clothed with so much consequence. I must die! This short sentence, frequently uttered and pondered upon, would go far to moderate asservity of feeling, eradicate enmity from the heart, to cool the ardor of worldly pursuits, to abate strife and jarring discord.

Secret of Beauty.

The editor of "Life Illustrated," in commenting on Bayard Taylor's description of the unusual beauty of Polish women, discloses the secret of their good looks, as follows:

"There girls do not jump from infancy to young lady-hood. They are not sent from the cradle directly to the parlor, to dress, sit still, and look pretty. No, they are treated as children should be. During childhood, which extends through a period of several years, they are plainly and loosely dressed, and allowed to run, romp, and play in the open air. They take in sunshine as does the flower. They are not girded down, girded about, and oppressed every way with countless frills and superabundant flounces, so as to be admired for their much clothing. Nor are, they rendered delicate and dyspeptic by continual stuffing with candies and sweet cakes, as are the majority of the American children. Plain, simple food, free and various exercise, and abundance of sunshine during the whole period of childhood, are the secrets of beauty in after life."

A SECRET.—"How do you do Mrs. Briggs? Have you heard that story about Mrs. Ludy?"

"Why, no, really Mrs. Gad—what is it, do tell?"

"Oh, I promised not to tell for the world! No I must never tell on't—I am afraid it will get out."

"No, I will never open my mouth about it—never. Hope to die this minute."

"Well, if you will believe it, Mrs. Fuddy told me last night, that Mrs. Trot told her that her sister was told by a person who dreamed it, that Mrs. Troubles oldest daughter told Mrs. Nichens that her grandmother heard by a letter which she got from her sister's second husband's oldest brother's step-daughter, that it was reported by the captain of a clam-boat just arrived from the Feejee Islands, that the mermaids about that section wear crinolines made out of shark skins!"

THE VALUE OF PRAYER.—Prayer is the haven of the shipwrecked man, an anchor to them who are sinking in the waves, a staff to the limbs that totter, a mine of jewels to the poor, a healer of diseases, and a guardian of health. Prayer at once secures the continuance of our blessings, and dissipates the cloud of our calamities. O, blessed prayer! thou art the unwearied conquerer of human woes, the firm foundation of human happiness, the source of every enduring joy, the mother of Philosophy. The man who can pray truly, though languishing in the extremest indigence, is richer than all besides; whilst the wretch who never bowed the knee, though proudly seated as the monarch of all nations, is of all men the most destitute. —*Chrysostom.*

☞ We ought to balance the good with the bad, and also the length of time a man has lived, to form a true estimate of his character. Polybius, the Greek historian, has an observation to the same effect:—"There is no reason," says he, "why we should not sometimes blame and sometimes commend, the same person; for as none are always right, neither is it probable that they should be always wrong."

Fanny Fern's Idea of "the Coming Woman."

Thick-soled boots and skating are coming in, and "nerves," novels and sentiment (by consequence) are going out.—The young woman, as I see her, is not to throw aside her needle; neither is she to sit embroidering worsted dogs and cats, or singing doubtful ditties, and rolling up her eyes to the "chaste moon."

Heaven forbid that she should stamp round with a cigar in her mouth, elbowing her *fellows*, and puffing smoke in their faces; or stand upon the free-love platform, public or private—call it by what specious name you will—wooing men who, low as they may have sunk in their own self-respect, would die before they would introduce her to the unsullied sister who shared their own cradle.

Heaven forbid the coming woman should not have warm blood in her veins, quick to rush to her cheek, or tingle in her fingers' ends, when her heart is astir. No, the coming woman shall be no cold, angular, flat-chested, narrow-shouldered, skimpy, sharp-visaged Betsy; but she shall be a bright-eyed, full-chested, broad-shouldered, large-souled, intellectual being, able to eat, able to fulfil her manifest destiny, and able, if so pleased God, to go to her grave happy, self-poised, and serene, though unwedded. For this world, though it may do for a man, is after all but a narrow place for a woman's heart to beat in. That many die and make no sign, is no proof that martrydom died out with John Rogers.—*N. Y. Ledger.*

SENSATIONS.—An exchange contains the following remarks on this topic:—"Our fondness for sensation makes us a superficial people. We swallow the news as we swallow a meal—that is, we bolt it. We take no time to reflect upon it, to examine its bearings, to glean from it lessons of wisdom, or to improve it in any way. We gulp it down and look about for another grain like a chicken in a corn-field. We are naturally intelligent and become very talkative smatterers upon all manner of subjects. But calm, deep thinking, and strong-brained men are fewer among our millions than our pride will permit us to acknowledge. The love of sensations has its serious perils also. We come to regard everything even of the most momentous importance, just as it promises a novel excitement. We must calm ourselves move more slowly—sensations will cost us a serious disaster, as we career ahead in our reckless and imprudent way.

God did not spare Christ Though he had no sin of his own, nothing but imputed sin, yet see what arrows pierced his holy soul! ☞ The affections of some men are like wells, stony on the outside, narrow; yet deep within not flowing forth like a river to seek thirsty souls far and near, and gladden God's earth, nor gushing up and around like a fountain in the sun, for all who seek them, but useful, notwithstanding, and very precious to some individual or household.

☞ An excited young man, to show his agility, recently jumped from an express train, while going at the rate of fifty miles an hour. The last seen of him was going flip-flaps, at the rate of seventeen revolutions a minute, while the air was chuck full of dicky strings and fragments of cloth, boots and torn linen.

ANOTHER MYSTERY.—The New York *Times* says the idea of Mike Walsh having been murdered, to prevent his giving testimony against Sickles, was quite freely canvassed, in some quarters, at an early hour of the day. In others it was rumored that the late Mr. Key, who was killed by Sickles, possessed knowledge, which placed Mr. Sickles and his wife and some eminent parties entirely within his (Key's) power, and that Mr. Walsh was possessed of similiar information with still further facts. Be this as it may, Mr. Walsh has, it is stated, been heard recently, in remarking upon the Sickles case, to comment upon it in an unfriendly manner to Sickles, and so as to convey the impression that he could make revelations useful to the prosecution.

THREATENED REBELLION IN CANADA.—We find the following in one of our exchanges:—"We have received an ably written circular from Oakville, Canada West, signed Wm. M. King, in which the present government is sharply handled, and a separation from the home government boldly advocated in the event of the success of some of the measures urged by those now in power. It refers approvingly to the action of these colonies under similar circumstances, and insists that the time is at hand when like action should and must be taken by the people of Canada. It urges some members of Parliament (if the new tariff succeeds) to propose in the House that *it is 'expedient to dissolve all governmental connection with Great Britain, that the union between Upper and Lower Canada be dissolved and that immediate steps be taken that Upper Canada may become a State of the United States.'* The circular is addressed to the Honorable Attorney General of Canada West, and large numbers have been printed for circulation.

ELECTION RETURNS.—The Municipal election at Portland, Maine, resulted in the election of Jewett, the Republican candidate for Mayor, by 200 majority.

Cincinnati Municipal election resulted in the success of the whole opposition ticket by an average majority of 1000.

Brooklyn Charter election resulted in the success of the whole Democratic ticket.

Cleveland Municipal election resulted in the success of the entire Republican ticket.

St. Louis Municipal election returns give Filley, Republican, for Mayor, 2500 over the Democratic candidate and 4,500 over the American candidate.

In Connecticut the Republicans have elected the four members of Congress the whole State ticket and a majority of 20 in both branches of the Legislature.

The returns indicate that the Republican candidate for Supreme Judge, in Michigan, has been elected by a majority of about 10,000.

Louisville Municipal election resulted in the success of the American ticket by a largely increased majority.

LETTER FROM HARRISBURG.

HARRISBURG, April 5th, 1859.

GENTLEMEN:—The arrest of an alleged fugitive slave, by a Deputy Marshal, in the Market Place in this borough, on Saturday morning last, caused about as much excitement as any thing that has taken place here during the winter. The arrest was made a few minutes before a train of cars started for Philadelphia, by which the fugitive was hastened away, otherwise a rescue attended by bloodshed might have been the consequence. The Abolition members in the House became highly indignant, and a Mr. Rose moved that because the law abiding citizens of Harrisburg did not rescue the alleged slave, that the bill for the removal of the seat of government to Philadelphia be immediately taken. The proposition received five votes.—On motion, Wednesday evening was set apart for a further consideration of Irish's nullification measure, called the "Personal Liberty Bill." On this the *rampant* can spread themselves, but when the yeas and nays are called, they will find that all republicans are not abolitionists.

The supplement to the exemption law, of which I have heretofore spoken, has passed the House, where it was considerably amended. It came back to the Senate to-day, when the House amendments were concurred in. The bill as passed, is as follows:—

A supplement to the act to exempt property to the value of 300 dollars from levy and sale on execution and distress for rent, approved April 9, 1849.

SEC. 1. *Be it enacted, &c.*, That the widow or children of any decedent entitled to retain $300 out of such decedent's estate by the laws of this Commonwealth, and every person entitled to the exemption provided for in the act entitled "an act to exempt property to the value of $300 from levy and sale on execution for distress for rent," approved April 9, 1849, may elect to retain the same, or any part thereof, out of any bank notes, money, stocks, judgments or other indebtedness to such person; and that in all cases hereafter when property shall be set apart for the widow and children of any decedent, the same shall be appraised and set apart to said widow and children by the appraisers of the other personal estate of said decedent.

It would have been desirable on the part of many who have noted the workings of this law in particular localities, to have it with still stronger safeguards, but, still it is so much gained.

In the Senate to-day a long and very tedious debate sprung up on a supplement to the Reading Rail Road, having for its object empowering the Company to continue the Lebanon Valley Branch to the town of Dauphin, in order to connect with the North Pennsylvania Road.—The bill passed the House in its present shape—which compels the Company to pay a three mill tax on all tonnage between this place and Dauphin, except on coal and iron. In the Senate an attempt was made to amend by making this tax on all goods between Dauphin and Reading, but it failed, and the bill passed as it came from the House.

The joint resolutions passed by the House in relation to the tonnage tax due to the State by the Pennsylvania Rail Road, have been reported negatively by the Committee. This does not entirely dispose of them, as they still may be re-committed or called up, but they get such a backset by this that they will probably never be heard of again.

The Flour inspector of Philadelphia—one George M. Lauman, is "some" on a sharp dodge. This office is worth somewhere between $6000 and $8,000 per annum, but he is not satisfied with this paltry pittance—his cormorant appetite calls for more. To satisfy this craving, he comes here with a bill which he wants passed, compelling all the flour made or sold in Philadelphia, whether intended for exportation or home consumption, to be inspected by him, at the usual fees. As the flour consumed is double the amount exported, a calculation can readily be made as to what amount this would enhance Mr. Lauman's profits. Of course the bill will have no show. It would be unjust to put this tax on the flour dealers of Philadelphia, since, if they dispose of an article falsely branded, the purchaser's remedy lies in the law against false pretences.

The Appropriation Bill was finished off in the Senate on Friday evening, and taken to the House for concurrence. While it was under discussion, a commendable spirit of economy was evinced by some of the members, and not only were many of the local charitable appropriations stricken out, but a motion to reduce the pay to $500 was passed, and also an amendment that the State Treasurer should retain $200 from all the members who took the extra last winter. The courage which prompted this bumcombe oozed out by evening, and all the sections stricken out were re-instated, beside several new ones being added, one of which appropriates $100 to the Mount Vernon Fund.—The pay business was altered, too, so that members will receive the $700 in spite of the show of economy, some of them made.

The house has had before it the bill in relation to the common Schools. The following amendment was offered by Mr. Smith. of Berks:—

That the qualified electors of the several counties, wards and boroughs of the State, shall at the next general election determine by ballot, whether a majority of the citizens of the State desire the abolition of the office of County School Superintendent of Common Schools or not; and that the ballots so voted shall be "for the County School Superintendent," and "against the County School Superintendent," and the result of said election shall be certified by the proper officers in the manner prescribed by existing laws relative to the returns of State officers to the next Legislature, who may take such action in regard to the same, as may be deemed reasonable and just.

This amendment seals the fate of the bill should it ever reach the Senate. A similar object was attempted to be accomplished by Mr. Harris, while the appropriation to the Schools was under consideration, by offering an amendment which would have enabled such counties as wished to get rid of the County Superintendent. Col. Cresswell made a very powerful speech against the amendment, and it fell by a most decided vote.

The opposition State Committee meets at the Jones' House on to-morrow evening to fix a time for holding a State Convention. Of course the disaffection in the Democratic ranks puts them in high spirits.

The Fry case is expected to come up to-morrow. I am told that the Hon. Thomas Corwin is here on behalf of the Grigg party.

As the session is about to close, I can not let this opportunity pass to say a word in behalf of the officers. I am under especial obligations to SAMUEL J. REA, Esq., the talented and indefatigable clerk of the House, who has proved himself a highly efficient officer, ever ready to do his duty, and always willing to oblige. For this—to say nothing of the fact that he belongs to my profession—if his party is again dominant at the next session, I hope he will be re-elected. But these wishes, good as they may be, are superfluous; his close attention to business has placed him in the safe line of precedents. Yours, LOGAN.

UNTAXED WIDOWS.—At a recent town meeting in Middleboro, Massachusetts, it was voted that all the widows in the town who pay no taxes, should receive 200 herrings on presenting an order from the selectmen.

The Poor House.

POOR HOUSE, April 5th 1859.

MESSRS. EDITORS:—I notice a communication in the last issue of your paper, signed "A Tax Payer," making some very erroneous statements in regard to the Poor House account. I do not know whether "Mr. Tax Payer" had any evil design in making these statements. He states that it cost $4 05½ per week for each pauper supported in the Poor House. This he thinks is too much, as it is more than his friends pay at the "Big House" in Altoona. We would agree with him if his statements were correct; but I cannot see where he gets the figures to make his calculations. The whole cost of the institution for the year 1858, was $3293 44, including our-door relief, directors, physicians, and stewards salaries, drugs and medicines, attorneys, constables, and justices fees, farm stock, new farm implements, lumber, carpenter work, paving, &c. By referring to our report it will be seen that we supported 611 paupers, which would make an average of 51 per month. The actual cost of the paupers in the House was $1141 94 which would be 43 cts. per week.—But we will include all the above mentioned expenses attending the institution exclusive of out door relief which was $2585 66 and make the cost 97½ cts. per week. The balance $607 81 was paid for the support of out door paupers. We also gave 1,424 meals to wayfaring paupers which I suppose would cost 10 cents per meal and amount to $142 40, which would reduce our expenses. But we have said enough at present, I think, to convince "Mr. Tax Payer" that he was mistaken in the figures.

E. McGRAW.

Effects of Whiskey Drinking.

The following items which we clip from the Johnstown *Echo* of week before last and last week, furnishes a striking example of the pernicious effects of indulging too freely in the poisoned beverages sold throughout the country:

A GHOST IN THE MINES.—On Monday morning last, as James O'Hara was entering one of the ore mines of the Cambria Iron Company, for the purpose of going to work, he alleges that he met in his path a ghost in the shape of a monster black dog, with a huge chain about his neck. Since that time Jimmy has been unable to work—whether from the effects of seeing the ghost or a quantity of rifle whiskey he had been looking at for a few days previous, deponent saith not.

Since writing the above we learn that two men working in the room adjoining O'Hara's were honored with a ghostly visit yesterday, the apparition in this instance appearing in the shape of an empty car, which came rushing upon them at a terrible speed, but in a moment it was gone, leaving in its stead a huge colored gent of no prepossessing appearance. The workmen in their fright broke for the entrance to the mine, leaving his sable majesty "monarch of all he surveyed," and whether they have succeeded in ousting him we are not prepared to say.

MELANCHOLY SUICIDE BY DROWNING.—James O'Hara, the man whom we noticed last week as having been frightened in one of the Cambria Iron Company's ore mines, by what he imagined to be a ghost in the shape of a large black dog, disappeared from Lisbon's boarding house in this place, on Friday morning last, and as he was known to have been indulging pretty freely in liquor for several days previous, inducing an an attack of *delerium tremens* under which he was then laboring, suspicions were aroused in the minds of his friends that he had met a suicidal death. In accordance with this conviction, which became stronger every hour, a party started in quest of the missing man on Sunday morning last, determined, if possible, to solve the mystery of his disappearance. A short distance below town they were informed by one of the watchmen on the Pennsylvania Railroad that a man suiting the description given of O'Hara had been seen by him, about 4½ o'clock on the morning of his disappearance, going down the railroad, and that he had expressed the determination of drowning himself. As the Express train was expected along in a short time, the watchman could not leave his post to prevent O'Hara from the fulfilment of his suicidal design, and after the cars had passed he was unable to discover the unfortunate man, although we understand he extended his search a considerable distance down the road. In the meantime O'Hara proceeded to the one mile dam, at the slack water, about four miles below town, and after depositing a blue shirt, which the watchman noticed in his hand when he passed by, upon the shore, he deliberately made his way down to a steep bank, his footsteps being noticeable in the soft clay, and walked into about five feet of water, from which his body was recovered by the above party, some twenty yards below the point at which he entered.

☞ Reports of the wheat crop continue favorable. There are some exceptions of course, but generally the prospects are quite encouraging. The Illinois papers agree that there is a probability of more than a general average in the State. In Michigan the prospects are equally favorable. These remarks also apply to Ohio and western New York. From Texas the accounts are exceedingly flattering. Wheat is in a fine condition. Corn is also looking well. It is five or six inches high, and has mostly received its first plowing. The season in that State is three weeks earlier than usual. The forests have assumed a green hue, and the fruit trees are covered with young fruit. In Louisiana wheat is in good condition and promises well.

A JAIL OF SOLID ROCK.—The people of Calhoun county, Ala., are building a jail, the first story of which is to be of solid rock, and no rock allowed therein less than three feet long, three feet wide, and eighteen inches thick.—Every rock in the dungeon is to be doweled, and the outside all hammer faced. The lower story is divided into three rooms, one a dungeon, one for debtors, and one for females. The Alabamians of that region are determined to have no more jail-bird flights.

DAMAGE BY A LAND SLIDE.—The loss occasioned by the recent land slide at Troy, N. Y., which buried St. Peter's College, is estimated at $7,000. The cause of the avalanche is said to have been a spring of water which percolated the hill, and which, it is thought, penetrated between the clay and the layer of gravel above it. The former was thus made slippery, and the latter, left without an adequate support, gave way.

HAPPY IGNORANCE.—Mrs. Key, the mother of P. Barton Key, now lies very ill at her residence in Baltimore. She is yet in ignorance of the manner in which her son came to his death.—The circumstances have been kept from her knowledge, and she believes he died of apoplexy.

☞ We learn that it has been determined by the Pennsylvania Railroad Company not to rebuild the Clark's Ferry Bridge. A steamer will be placed on the river at that point to tow canal boats across.

FIRST CHAPTER OF VOYAGE TO PIKE'S PEAK.—A Pike's Peaker from Cincinnati writes to his friends the following account of the initial chapter of his voyage:—We started from Cincinnati at six o'clock. There are all sorts of people on board our boat, most of them bound for Pike's Peak. A short time after we started out, as I sat by the stove reading a card headed "Shortest route to the gold region," I heard a voice at the table crying out "This is the way, gentlemen; a man won fifty dollars off me." With the rest of the crowd, I looked on, and saw a small man with spectacles on, tossing cards.—He rattled off at a great rate, "It looks easy, gentlemen; a man would feel sure to win, but he would lose—I did; I'd not advise any man to bet," still tossing the cards, "yet if any man wants to I'll take him, but he will be sure to lose; I'd advise no man to bet unless he has plenty of money." With this kind of talk he kept on; finally, one of his clums put down a hundred dollars, and won. The bait took, and four or five Pike's Peakers pitched in; in less than two hours the sharpers had six hundred dollars and four gold watches. By this time the Captain sent them a hint that we were at Aurora, and the four gents left.

AN HONEST CONFESSION.—Senator Toombs, with all his errors, is a bold man, and sometimes says what is not agreeable to his political associates. In his late speech on the revenue question, he thus spoke of the wastefulness of the National Administration:—

Your appropriations for Navy Yards have gone to the building of houses for officers and making of flower pots and all that kind of thing, at a cost of $2,000,000; and it will be no less as long as you will pay it, but will go up to $4,000,000, if you do not stop it. There are $2,000,000 that you have no need for at all. You have 8000 sailors to man your navy. You have not increased them of late years, and you now have 8000 men in your navy-yards to help them, —civilians. You have carried their number up from 3000 to 8000. You have eight navy-yards. England has over 550 ships and she has two navy-yards. You have eight conveniently located all about the country, and it is a cause of reproach to good Democrats, for *the enemy say we keep people there to cheat them in elections, and as God is my judge, I am afraid there is something in it.*

INTERESTING TO THE BEARDED.—A writer in the Boston *Post* has the following pithy communication:

I have seen it stated somewhere that there is an intimate connection between the nerves and muscles of the face and eyes, and allowing the beard to grow strengthens the eye. It is said that surgeons in the French army have proved, by experiment, in Africa, that soldiers wearing the beard are much less liable to disease of the eye, and it is generally conceded that it is a protection from diseases of the throat and lungs. It is asserted that in countries where it is the custom to wear the beard, the eye retains its lustre and brilliancy much longer. It may be argued that females do not suffer more than males from diseases of the eyes, &c., but it must be admitted they are much less exposed to the elements. What did the Creator give the locks of creation a beard for? Certainly not to support barbers. There is just as much sense in shaving the head as the chin.

A CURE FOR A RATTLESNAKE BITE.—Last year a man caught four rattlesnakes on Mount Tom, above Springfield, Massachusetts, and these he exhibited in Hartford, Connecticut, at the last State Fair. He exhibited the scar of a bite from one of the reptiles on the right hand, which he had incautiously thrust into the cage to convey to them their food; and he attributed his preservation to an immediate resort to the use of a remedy which he kept always at hand, and which we here print for the benefit of our readers, in the country particularly: He boiled the bark and leaves of the white ash-tree down to the strongest tea he could make, mingling with it during the boiling, one-third the quantity of *potash*. This decoction, boiled almost to the consistency of a syrup, he kept on hand, and when bitten he instantly applied it to the puncture, and also swallowed some of it—and he told us that he had felt but little inconvenience from the wound, and it was then three months after the infliction of the bite.—*Medical Mag.*

☞ If the following, which we clip from an exchange, is new, it is certainly the best joke of the season. Joseph belongs to a very extensive fraternity:—"We have heard of a farmer whose son had for a long time been ostensibly studying Latin in a popular academy. The farmer not being perfectly satisfied with the course and the conduct of the young hopeful, recalled him from school, and placing him by the side of a cart one day, thus addressed him: 'Now, Joseph, here is a fork, and there is a heap of manure and a cart; what do you call them in Latin?'—'Forkibus, cartibus, et manuribus,' said Joseph. 'Well, now,' said the old man, 'if you don't take that forkibus pretty quickabus, and pitch that manuribus into that cartibus, I'll break your lazy backabus.'" Joseph went to workibus forthwithabus.

A GIPSY TRICK.—The Shelbyville (Indiana) *Banner* says that a farmer of that place, who had a horse of a very homely color, recently sold him to a gang of gipsies for a mere song. A few days after he was offered a fine dark-brown steed, for which he willingly paid a round price, but was shocked to find, after a short time, that he had bought back his old sorrel, with the addition of a thick coat of paint.

THE NEW CENT POISONOUS.—It is stated that several instances have occurred in different parts of the country where children have died from the effects of poison taken into the system by swallowing the new nickle cent. As this coin is small and easily swallowed, there is great danger in allowing young children to have them in their possession. The metal which composes it has had a fatal effect, and would seem to be poisonous.

☞ In Cincinnati, lately, a man named Galt married a dumb woman. Being asked why he did so, he answered that he had had two wives already, and they gave him no rest by reason of their talking ceaselessly, and complaining and scolding from morning till night. Both had died, and now, as he was forty years old, and desirous of having a little peace for the remainder of his life, he had determined to select a dumb woman for his third connubial partner.

SCARLET DYE FROM BED BUGS.—It has been said that those nocturnal tormentors which infest bedding in many localities, have but one use, "to teach mankind humility." A chemist at Melbourne, Australia, however, has discovered that they may be usefully employed as the cochineal insect itself in producing a scarlet dye, specimens of which have been exhibited.

☞ The New York Central and the New York and Erie are at work in the interesting game of cutting their own throats, in order to injure the common enemy. We have noticed the reduction of fare between Buffalo and New York to seven dollars. It has again been reduced, and the present fare between these points by either road is $6,50.

CASHIER ELECTED.—J. D. Cameron, Esq., of Harrisburg, son of the Hon. Simon Cameron, was on the resignation of the latter, elected Cashier of the Bank of Middletown, on last Monday.

A MAD HORSE IN SPASMS.—Mr. Wm. Campbell, of Springfield Township, Pennsylvania, lost a fine horse recently, which died of a malady supposed to be hydrophobia. On the morning of that day he broke out of his own stall, and went into an adjoining one, and heavy marks were seen in the boards, where he had bitten them. He was then taken back and tied to a white-oak tree, and while fastened to it he bit the bark of as far as his could reach, and covered it with blood. When he had an opportunity, he would bite his own limbs, which were in places gnawed raw. He finally tore loose from the tree, and ran down towards the barn of Mr. Campbell, to a post and rail fence, where he continued to bite the rails until his mouth became so stiff that he could no longer take hold, and in a little while he dropped down and died. Some three weeks before, Mr. Combell's dog left him suddenly, and has never since been heard of; it was supposed at the time that he had gone off mad, and it is now thought that he had previously bitten the horse.

NATURAL PROTECTION TO YOUNG DEER.—An old Canadain hunter declares that the reason why the wild deer are not killed when young (as they breed once a year and are always surrounded by other animals which prey upon them, as dogs, wolves, bears, panthers, etc.,) is that "*no dog or other animal can smell the track* of a doe or fawn, while the latter is too young to take care of itself!" He stated that he had often seen it demonstrated. He had taken his dogs over the ground when he had just before seen them pass, and they would take no notice of the track, and could not be induced to follow when taken to the spot, while they would instantly discover the track of any deer not having young ones. This is but one proof of the adaptation of the natural laws to preserve life when it most needs protection.

'SCAT.—A large cat got into an "Orthodox organ" at Plymouth, Massachusetts, during religious services on Sunday week, and set up an awful solo in opposition to the sacred harmony. Beautiful discords ensued, the choir went into hysterics, and a general confusion followed.—The deacon and the sexton cried "scat!" at which the feline only yelled the louder through fear. Pussy finally made her exit, but there is no knowing what might have happened if the organ had not been an "orthodox" one.

MORMON WIFE-STATISTICS.—The Utan correspondent of the Chicago *Tribune* has taken notes of the social status of that territory. The results foot up as follows: 387 men with 8 or more wives; of these 13 have more than 19 wives: 730 men with 5 wives; 1,100 men with 4, and 2,400 with more than one wife. Recapitulation —4,617 men, with about 16,500 wives!

TERRIFIC!—The Canada papers assert that the wife of Jacob Abbot, in Colconda, Canada West, recently had eight children at a birth.

MORE THAN 500,000 BOTTLES SOLD IN THE *NEW ENGLAND STATES* IN ONE YEAR.

The Restorative of Prof. O. J. Wood for Restoring hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that *it is a perfect Restorative*; but read the circular and you cannot doubt; read also the following.

☞ The Hair.—People have for centuries been afflicted with baldheads and the only remedy heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before.

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should be left untried to obtain such a consideration.—*Woman's Advocate*, Phila.

Coshocton, Ohio, Nov. 17, 1855.

O. J. WOOD & CO.—Gents: As I have been engaged in selling your Hair Restorative the last season for one of your local agents (R. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced *there is nothing equal to it in the United States, for restoring the hair.* I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell. Yours truly.

S. T. STOCKMAN.

Wayland, Mass., Feb. 5, 1857.

PROF. O. J. WOOD & CO.—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair rapidly growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the operation I have used nearly three bottles.

Yours &c., JAMES FRANCIS.

ALTOONA GAS AND WATER COMPANY."—Below we publish the Act of Assembly in reference to supplying the Borough of Altoona with water, the Act incorporating the "Altoona Gas Company," and the supplement passed a few days since, presuming that our readers feel an interest in the matter, now that we are to have a live company of the style above named:—

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That the burgess and town council of the borough of Altoona, in Blair county, are hereby authorized and empowered to enter into a contract with the Pennsylvania railroad company, for the use of the surplus water introduced by said company into the borough of Altoona, for the supply of their locomotive engines and workshops, at cottages, so far as may be necessary to supply the citizens of said borough with water; and the said Pennsylvania railroad company are hereby authorized and empowered to enter into a contract with said burgess and town council for the said purpose, on such terms as may be mutually agreed upon by and between them.

SEC. 2. That the said burgess and town council of the borough of Altoona, be and they are hereby authorized to construct a basin or reservoir for water, to hold a sufficient supply for the citizens of said borough, on ground to be procured for said purpose, and shall proceed to construct the same, and to dig trenches, and lay down trunks and pipes where deemed necessary, along the streets and alleys of said borough, for the purpose of conveying said water, and supplying said borough, as is hereinafter provided with the same, as soon after the consummation of said contract as practicable, and shall have liberty, at all times, to renew and repair the same, shutting up and amending any breaches which may be made as soon as possible; and that they be authorized to borrow, on the credit of the borough, any sum necessary to effect the same, not exceeding five thousand dollars, in such sums, and at such times as may be necessary: and they are hereby authorized and empowered to levy and collect a tax which shall, with the rent of said water, be sufficient to pay the interest of said loan, and create a sinking fund to repay the principal.

SEC. 3. That the burgess and town council of said borough shall, at all times, where trunks and pipes shall be laid in and through any of the streets and alleys in said borough, suffer the citizens of said borough to be supplied with water for domestic use, and such other uses as the burgess and town council may permit, for such reasonable compensation as shall from time to time be agreed on by the said burgess and council and such individuals, according to such certain uniform rates as the burgess and town council shall hereafter adopt, having regard to the quantity of water which applicants are likely to consume: *Provided*, That the owners of the freehold on and upon which said water is taken and used, shall in all cases be the parties with whom such contract for the use of the water shall be made, and the said real estate be bound for and liable for the payment of the same, reserving to the borough the right to contract with the lessees or tenants, if they see fit and proper so to do; and any person or persons within the said borough who shall take any of the said water for domestic or other uses without having previously contracted for the same with the said burgess and town council, shall forfeit and pay for every such offence any sum not exceeding the sum of fifty dollars, to the said burgess and town council, for the use of the borough, to be recovered before a justice of the peace by action of debt on assumpsit, in the same manner as debts of equal amount are now recoverable.

SEC. 4. That if any person or persons, or body politic, who shall have contracted with said burgess and town council for the use of said water, shall wantonly and unnecessarily waste the same, to the injury of the said borough, or shall permit any other person or persons, not being by the said contract entitled to the use thereof, to make use of the same, or shall neglect and fail to pay to the said borough the amount of money by him, her or them agreed upon to be paid as a compensation for the use of said water, for the period of three months after the same shall be due and payable, according to the terms of said contract, it shall be lawful for the burgess and town council to withhold and cut off the water from the premises of such individual or body politic and corporate, until all such arrearages, with interest and the costs of recovery, shall be paid: *Provided*, That nothing herein contained be so constructed as to affect, impair or take away the right of the said borough to sue for and recover the amount of such arrearages.

SEC. 5. That if any person or persons shall wilfully destroy or injure in any manner the pipes, cisterns, reservoir, hydrants, or any of them, or any of the works of the said borough, erected or to be erected in pursuance of this act, or shall wilfully corrupt or otherwise render unwholesome, or use without permission the stream of water which shall be conveyed or brought through the said borough, on being convicted thereof before any justice of the peace in and for the county of Blair, by the oath or affirmation of one or more credible witnesses, pay a fine not exceeding twenty dollars, one-half to go to the poor of said county and the other half to the informer, and shall moreover remain liable for all damages to the borough.

HENRY K. STRONG,
Speaker of the House of Representatives.
WM. M. HIESTER,
Speaker of the Senate.

APPROVED—The second day of May, Anno Domini one thousand eight hundred and fifty-five.
JAS. POLLOCK.

The following is the Act relative to the "Altoona Gas Company:—

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That William B. Foster, junior, H. J. Lombuert and Enoch Lewis be and they are hereby appointed commissioners, and they or a majority of them are hereby authorized to carry into effect the establishment of a gas company, to be located in the borough of Altoona, in the county of Blair, and state of Pennsylvania, with a capital stock of fifteen thousand dollars, to be divided into shares of fifty dollars each, to be organized, managed and governed as provided by the act regulating gas and water companies, approved the eleventh day of March, one thousand eight hundred and fifty-seven, and subject to all the restrictions and provisions, together with the immunities contained in said act.

SECTION 2. That it shall be lawful for the borough of Altoona in its corporate capacity, or for any other corporation in its corporate capacity, to subscribe for any number of shares of stock of the said company; and to enable the said borough to subscribe stock as aforesaid, it is hereby authorized to borrow the amount so subscribed, and to pledge their property and franchises for the payment of the same.

J. LAWRENCE GETZ,
Speaker of the House of Representatives.
DAVID TAGGART,
Speaker of the Senate.

APPROVED—The twenty-fourth day of April, Anno Domini one thousand eight hundred and fifty-seven.
JAS. POLLOCK.

The following is the Supplement to the above Act, in which it will be noticed that the whole of the Act in relation to the supplying the Borough with water has been repealed, with the exception of a portion of the second section:—

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That in addition to the persons named as commissioners in the 1st section of the Act to which this is a Supplement, John Shoemaker, James Lowther, William M. Lloyd, Clement Jaggard, Thomas A. Scott, A. B. Clark, B. F. Rose, Chas. J. Mann, G. B. Cramer, E. M. Jones, be and they are hereby added as commissioners with the same powers and duties as prescribed in the said act and the general act regulating gas and water companies, approved the 11th day of March Anno Domini 1857.

SEC. 2. That the title of said company shall be changed to that of the "Altoona Gas and Water Company," and in addition to the privileges granted for establishing gas works, they shall have all the privileges granted to water companies as provided by the act regulating gas and water companies, approved the 11th day of March 1857; and be subject to all the restrictions and provisions together with the immunities contained in said act.

SEC. 3. The commissioners refered to in the original act and this supplement or a majority of them are hereby authorized to carry into effect the establishment of a gas and water company to be located in or adjacent to the borough of Altoona in the county of Blair, and State of Pennsylvania, with a capital stock of forty thousand dollars, to be divided into shares of twenty dollars each, with the right to increase said capital stock to an amount not exceeding sixty thousand dollars provided the same shall be necessary to complete and place in good condition, all the works and improvements of said company.

SEC. 4. And whereas the burgess and town council of the borough of Altoona have officially declared their desire to have the act repealed relative to supplying the borough of Altoona with water approved May 2d 1858, so far as it relates to the borough authorities, and desired that the powers and privileges granted said borough and her corporate authorities should be vested in the "Altoona Gas and Water Company." The act of May 2d 1855 is hereby repealed so far as it relates to said borough, and the powers and privileges therein granted except so much of the second section of said act as empowers the parties "to borrow five thousand dollars" "to levy a tax" and "to create a sinking fund" shall be and they are hereby vested in the said "Altoona Gas and Water Company" in addition to all other powers and priveleges confered in this act.

NOTICE.

A meeting of the Commissioners (Corporators) of the Altoona Gas and Water Company, will be held at the Logan House, in Altoona on Monday April 18th, at 2 oclock P. M., for the purpose of opening books for the subscription to the capital stock of the said Company as authorized by a General Act of Assembly, passed 11th March 1857. In behalf of the Commissioners.

JOHN SHOEMAKER.

RUN-OFF.—On Friday afternoon a horse harnessed in one of the carts engaged in the excavation next to the Superintendent's office, made railroad speed at the railroad crossing—the horse having become frightened at a locomotive.—When opposite the Company's Store Room, the craft ran a-foul of a snag, capsising horse, cart, and driver, (a small boy,) into the cinders lying at the spot. The cart fell upon the boy, and it was supposed by the spectators that he was killed. When rescued he was insensible, but showed signs of life in a few moments. As soon as he opened his eyes, he astounded the crowd gathered with the request to lift him on the horse! His request was reluctantly complied with, and he drove off to the stable, none the worse of his "cartwreck"—providentially.

ANOTHER.—On Saturday morning last, as our next door neighbor, Jas. Rigg, and some two or three others were endeavoring to place a large cooking stove on a dear-born wagon, in front of his shop, the horse took fright, probably at the rattling of the iron and "broke" down Virginia street at 2:40 speed. A gentleman who was standing in the back end of the wagon found himself on all fours on the ground very suddenly—none the worse of the fall however. The sudden meeting between the ground and stove was somewhat detrimental to the latter. The runaway was captured in the vicinity of McCormick's store.

DISTRESSING ACCIDENT.—A short time since a young man well known to our citizens emigrated to Pike's Peak, where two days after his arrival he met with a dreadful accident. He, it appears, (with one or two others), had succeeded in gaining the summit of the Peak, and filled his pocket full of "rocks;" but in the descent, he missed his footing, rolled to the base, and *run the Pike in his eye!* The loss of his eye was a small matter compared with the damage done his clothes, which were completely torn in shreds. But gathering up his "rocks," he hastened to his former home as fast as steam could carry him, rushed into Harry Tuck's store, and bought a superb suit from the immense stock of Spring clothing which Harry has just received from the east—and (though minus an eye), considers himself a whole man yet. If you visit Harry at his store, he will vouch for the truth of the above, and show you as extensive and cheap a stock of clothing as was ever brought to Altoona.

THE LECTURE.—The Lecture before the Altoona Mechanic's Library and Reading Room Association, advertised in our last issue, came off according to appointment, at the Methodist Church on Thursday evening last. The meeting was opened with a few appropriate remarks by the Chairman of the Lecture Committee, T. P. Sargent, Esq., who introduced the Lecturer, L. W. Hall, Esq. Mr. Hall then entertained the large and intelligent audience gathered, with as neat and instructive a lecture as (we venture to say,) they ever listened to. His subject, "Benjamin Franklin," it is true, is a prolific one; but we never heard it as intensively dwelt upon in so short a time, as on this occasion. Mr. H. has the rare knack of saying much in a few words. His audience were certainly well pleased, and *the* lecture, has been the general subject of laudable comment for the week past.

ORIGINAL ARTICLES AND ENIGMAS.—We have on hand a few original articles and enigmas which we have not had time to examine, owing to the confusion consequent upon our removal and a rush of job work. By next week, however, we hope to have all things arranged, and shall then give our contributors proper attention. Hope you'll excuse us, gentlemen.

HOW TO CURE A COUGH OR COLD SPEEDILY.—Some will tell you to sweat, bathe, and take burnt brandy and sugar; but we say, no!—There is a safe and sure remedy, better than either of the above, in DR. KEYSER'S PECTORAL CHERRY SYRUP, which has stood the test of years experience. Dr. Keyser says that he prepares every bottle of this medicine himself, and the public may rest satisfied that it will be prepared with the same care as heretofore. One thing we know, that for a cough, cold, or lung disease of any kind in the incipiency, it has no rival. We say this much as public journalists, and are sure we will do some good by directing public attention to it. Dr. Keyser makes his Pectoral for two reasons: to satisfy public demand, is one, to make an honest living is the other. Sold by G. W. Kessler, Altoona.

BUSY TIMES.—In the immediate vicinity of our office, times look rather brisk. Workmen are engaged in excavating the embankment between the Superintendent's office and the Presbyterian Parsonage preparatory to laying the foundation of the large three-story brick building to be put up by the Company. Bricklayers are at work on the extension now being made to the Superintendent's office, intended for an office for the Resident Engineer. On the opposite side of the street carpenters are plying the saw and hammer in framing up a new building for Lewis Plack, intended for a grocery store. From our office windows we notice a number of new houses going up in other parts of the town, denoting that labor is abundant, the times "easing up" and our town fast improving.

OUR NEIGHBORS BELOW.—Our neighbors down stairs, Messrs. J. & J. Lowther, have taken the room heretofore occupied by Lewis Plack, and filled it with a fresh supply of groceries, hardware, queensware and everything in the provision line. They have also received their Spring stock of Dry Goods which for beauty and quality is not surpassed in the town. They have gone into business on an extensive scale, but their wide reputation for selling goods cheap will enable them to dispose of their stock in short order. Give them a call and you will be pleased.

AMPUTATION.—Mr. Michael Tracy, who had his foot smashed on the Pa. Railroad, a few weeks ago, was forced to undergo the severe operation of amputation, on Saturday night last. Mortification had extended so far as to render it neccessary to amputate above the knee. Although very much debilitated at the time the operation was performed, he survived it, and is now doing well. His surgeons were Drs. Finley and Christy.

CHANGED HIS LOCATION.—Jacob Snyder has removed his tailoring establishment into the room heretofore occupied by the *Tribune* office, in the "Brant House," on the corner of Main and Annie streets, where he will be pleased to see all his old customers. He has fitted up the room in a tastely manner. He intends to keep an assort of flour for the accommodation of those who wish anything in that line.

APOLOGY.—Those who have enjoyed the extreme felicity and pleasant serenity of mind which accompanies a "flitting" will appreciate our situation this week—excuse all lack of interest in this number of our paper, and accord to us a week to regain our wonted equilibrium.

☞ We learn from the *Register* that a little daughter of Mr. L. Dasher, at Maria Forges, aged about five years, was so badly burned one day last week, by her clothes taking fire, as to occasion her death.

FOUST SENTENCED.—On Thursday afternoon last, Jacob Foust, (formerly of this county), convicted of the murder of Matthew Linsmore, at Erie, was sentenced to be hung.

WANTED TO PURCHASE—A good watch dog.—Inquire at the "Tribune" Office.

☞C. Jaggard has removed his goods for the present to Ferree & Morrow's corner, where in a few days he will be happy to see his friends and the public generally.

Altoona, March 3d, 1859.

Ho! for the Arctic Region!

If any of the Ladies are dissatisfied with the weather we are having, and desire visiting the Arctic Region, we would recommend them to call on C. J. MANN and replenish their wardrobe from his beautiful stock of

CLOAKS, CAPES AND SHAWLS,

which he is selling off CHEAP, being determined to dispose of them while the snow is screeching.

January 13th, 1859.

THE HALL OF FASHION is still open, and the Proprietor, in returning thanks to his numerous customers for their liberal patronage bestowed on him since his commencement, here desires to say (without fear of contradiction) that he is prepared to offer for their inspection the best assortment of handsome DRESS GOODS, SHAWLS, CLOAKS, WHITE GOODS, &c., &c., that can be found in Altoona.

Respectfully, &c., C. J. MANN.

SPECIAL NOTICES.

THE GREAT ENGLISH REMEDY.
SIR JAMES CLARKE'S
CELEBRATED FEMALE PILLS.

Prepared from a prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This luvaluable medicine is unfailing in the cure of all those painful and delicate diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price one dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females During the first three months of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these Pills will effect a cure when all other means have failed, and although powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

Sole Agent for the United States and Canada,
JOB MOSES, (late I. C. Baldwin & Co.)
Rochester, N. Y.

N. B.—$1.00 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle, containing 50 Pills, by return mail.

Dalley's Magical Pain Extractor.

In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR,
and nothing else, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR

will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Sprains, Bites, Poison, Chilblains, Piles, Scrofula, Ulcers, Fever Sores, Felons, Ear-Ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its opposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR

In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Sold by G. W. Kessler, Altoona; George A. Jacobs, Hollidaysburg; and by all the Druggists and patent medicine dealers throughout the United States and Canadas.

PIKE'S PEAK is creating considerable excitement, but not so much by any means as the large, splendid and cheap stock of

Spring Goods,

now being opened at the MODEL STORE: and while it is still a mooted question whether or not gold can be procured by going to the former place, the proprietors of the Model feel confident in saying that gold can be saved by persons purchasing goods of them.

Our Stock at present will be found much larger and more varied than heretofore, and we hope to be able to please the tastes of the most fastidious.

Foreign and Domestic Dry Goods,

Such as English and French Ducals, black and fancy Silks, French Brilliants, figured and white Marseilles, Lawns, Ginghams, Prints, Muslins, &c.

Also, a splendid assortment of White Goods, Hosiery, Gloves, Mitts, &c. We have also on hand a large lot of CARPETS, bought at auction for cash, which will be sold very cheap. A large assortment of beautiful Spring and Summer SHAWLS,

BOOTS & SHOES,
Wooden & Willow Ware, Queensware,
HARD WARE GROCERIES
&C., &C., &C.

Feeling thankful to our friends for their patronage heretofore, we are determined to sell Goods cheaper than ever for cash or for prompt monthly payments only. We cordially invite our old and new friends and customers to call and see our new stock, which we will be pleased to show them. J. & J. LOWTHER.

DR. COGGSWELL'S NEW MEDICAL SALT. *For Inflammatory Diseases only.*

DR. COGGSWELL'S NEW MEDICAL SALT, instead of being a remedy for all ills, has but one aim, and accomplishes but one thing, to wit: Subdues inflammatory disease, whatever be its form or locality. This it does by equalizing the circulation, thereby removing the sole cause of inflamation.

RHEUMATISM, NEURALGIA, Headache, Fits, Colds, Fevers, Inflamed Throat, Lungs, and Liver, Female Diseases Erysipelas, Bronchitis, Pleurisy, Asthma, Dyspepsia, Venereal Diseases, Gout, Scrofula, Canker and all other forms of Inflamation are easily subdued by the New Medical Salt.

THE NEW MEDICAL SALT, is no CURE-ALL, but does just what it claims to do—no more, no less—equalizes the circulation by removing from the system all arterial and venous obstructions.

MULTITUDES HAVE TRIED the virtues of the New Medical Salt, though but lately discovered and introduced. Witness the testimonials and certificates of cure.

ALL WHO HAVE USED it acknowledge a benefit from it.—An acquaintance of ours was cured of a severe case of Neuralgia in less than a week.

YOUR INVALUABLE MEDICINE is nobly fulfilling, in my case, all the promises which you made for it. A few doses also relieved my mother of a rash of blood to the head.
J. P. GILLINGHAM, Phila.

INFLAMMATORY RHEUMATISM was my complaint. The first package did the work effectually, as not a vestige of Rheumatism is left. G. H. DUNCAN, New York.

I KNOW IT IS good for Rheumatism, removing it in a few hours. I am now trying it for Scrofula and have already received benefit. E. LESSIG, Reading.

I TRIED IT FOR ANEURISM of the Abdominal Aorta. In ten days the pain was gone.
T. W. FITZIMONS, M. D., Phila.

WE SPEAK BY THE BOOK. We have tried it. It has complete control over inflamation.

BRONCHITIS, CANKER, Rheumatism, and Neuralgia have been cured by it.

MANY MORE WORDS PRINT, if necessary. Descriptive Circulars, with testimonials may be obtained from any Druggists who has this valuable medicine for sale.

DR. COGGSWELL'S Antiphlogistic Salt. Price, One Dollar. Chronic Package, $2.50.
D. C. TAYLOR, & CO.,
Gen. Agents, 272 Dock St. Phila.

THE NEW MEDICAL SALT IS FOR SALE in Altoona, by A. Roush; Geo. A. Jacobs, Hollidaysburg, and by all enterprising druggists wherever the "Tribune" is read. As it is not a patent medicine, but the prescription of an eminent physician, no one should fail to try the Medical Salt. For testimonials and directions, see circular.

DU VALL'S GALVANIC OIL.

Prepared originally by Prof. H. DU VALL, formerly of the College of Surgeons, at Paris, is now offered to the public, ☞ for the cure of sore and painful diseases. ☜

For instance—Pain or soreness in any part of the system, Rheumatism, pain in the back, breast or side, healed breasts, neuralgia, burns, sprains, headache, cramp in the stomach, or any other disease that is SORE and PAINFUL, and it is only over this class of diseases that we claim a perfect VICTORY. We say positively to our patrons we can relieve the sufferer 99 times out of 100. We would just say to the public, Prof. Du Vall was 25 years in bringing to this medicine superiority over all others.

Price 50 cents per bottle—½ per cent. cut off to the trade. All orders must be addressed to

STOVES! STOVES! STOVES.—The undersigned has just received from Philadelphia, North, Chase & North's celebrated Cooking Stoves for 1857.

THE ROYAL COOK

for Wood or Coal. This beautiful Cooking Stove challenges all competition for the exquisite style of ornament and perfect operation in all respects. The oven extends under the fire-box and the flues are so arranged that the whole oven surface will bake perfectly and uniformly. The slightest examination of this Stove must satisfy every one that it will become a universal favorite.

THE SEA SHELL,

for wood or coal. The fire-box is of good capacity—the ash-box is deep—the oven is capacious and is a thorough baker. This stove is one that may readily be recommended for family use, in every particular.

SUFFERING HUMANITY, READ THIS.—The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects on a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 20 minutes the pain was asleep, and when awakened was free from pain and continued so. This is a positive fact which I am willing to make good at any time. A case of Felon was cured in nearly the same length of time. J. H. HAHN,

COMPETITION IS THE LIFE OF TRADE.—Fully convinced of the truth of this saying, the subscriber would respectfully announce to the citizens of Altoona and vicinity, that he has entered the field, by opening a

MERCHANT TAILORING ESTABLISHMENT,

in the room heretofore occupied by Michael Gallagher, immediately opposite the Superintendent's Office, where he will carry on the business as usual. He has just received an excellent assortment of

CLOTHS, CASSIMERES & VESTINGS,

suitable for working and dress suits, which he will make to order, on short notice and at prices which can not fail to satisfy. He has also received the LATEST STYLES of

FALL AND WINTER FASHIONS,

and feels confident that he can satisfy the most fastidious in this particular, and his clothing will be made as well as clothing can be made. In fine, he is determined that nothing shall be wanting on his part to render satisfaction to those who may favor him with their patronage.

Altoona, Nov. 5-tf.] JOHN TALBOT.

ANOTHER BREAK-OUT.—THE subscriber would inform his old customers that he has opened out again at his old stand, where he hopes to receive their calls. He has now on hand the cheapest and best assortment of

GROCERIES

that can be found in the town, consisting of

SUGAR, COFFEE, TEA, MOLASSES, Salt by the bushel or sack, Dried Fruit of all kinds, Fish of the very best quality,

together with everything in the Grocery line, all of which is fresh from the Eastern market.

He also keeps constantly on hand a suppy of

FLOUR, FEED AND GRAIN,

which he sells at the lowest market prices.

PORK always on hand and retailed in quantities to suit purchasers. JOHN LEHR.

EXCHANGE HOTEL.—THE SUBSCRIBER would respectfully inform the public that he has recently refitted the above Hotel, and is now prepared to accommodate his friends and patrons in a comfortable manner, and he will spare no pains in making it an agreeable home for all sojourners. His Table will always be luxuriously supplied from the markets of the country and cities, and his Bar filled with liquors of choice brands. His charges are as reasonable as those of any other Hotel in the place, and he feels satisfied they can not be complained of by those who favor him with their custom. Expecting to receive a share of public patronage, and fully intending to deserve it, he throws open his house to the public and invites a trial.

DR. COGGSWELL'S NEW MEDICAL SALT. *For Inflammatory Diseases only.* NEW MEDICAL SALT! NEW MEDICAL SALT! *IT IS NOT A CURE-ALL. For Inflammatory Diseases Only!*

DR. COGGSWELL'S NEW MEDICAL SALT, instead of being a remedy (or all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: SUBDUES INFLAMMATORY DISEASE; whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

The peculiar excellence of the NEW MEDICAL SALT is, that without the useless loss of blood and strength, it effectually cures INFLAMMATORY DISEASES (no other) by producing an equilibrium of all the fluids in the body, the want of which is the sole *cause* of inflammation.

INVALIDS, TAKE NOTICE!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever; are as easily subdued by the NEW MEDICAL SALT, as fire is extinguished by water, to wit: Brain Fever, Headache, Rush of Blood to the Head and Heart, Fits, Inflamed Eyes, Ears and Nose, Canker, Neuralgia, Spinal Affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Inflamed Lungs and Liver, Heartburn, Coughs, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, Salt Rheum, and all Itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT exerts, like the vaccine matter, an extraordinary influence on the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids, by removing from the system all arterial and venous obstructions. Description circulars may be obtained from any Druggist who has this valuable medicine for sale.

HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, affected with Virulent and Epidemic diseases.

The Howard Association, in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a *charitable* work, to give of their name, to open a Dispensary for the treatment of this class of disease, in all their forms, and to give medical advice *gratis*, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty and suffering, *to furnish medicine free of charge.* It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gon orrhœa, Gleet, Syphilis, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-abuse, and other diseases of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope), FREE OF CHARGE, on receipt of TWO STAMPS for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or Treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 S. Ninth street, Philadelphia, Pa. By order of the Directors.

GREAT IMPROVEMENT IN COOKING STOVES.

CONSUMPTION OF SMOKE AND GAS AND SAVING OF FUEL.

The subscriber takes pleasure in offering to the public a NEW GAS AND SMOKE CONSUMING

Cooking Stove, recently patented, which is destined to supersede all others, as it requires

ONE-THIRD LESS FUEL

than other stoves and is more easily, quickly and regularly heated. No unpleasant smell of gas arises from this stove from the fact that it is all consumed ere it can escape. There is no trouble from smoke as that unpleasant and often annoying exhalation is also consumed inside of the stove. Neither is there any danger of flues or chimneys becoming clogged with soot or the mortar loosened by the gas arising from coal fires.

Persons wishing to purchase stoves are invited to call at the store of the subscriber, in the Masonic Temple, and examine the above stoves. JOHN SHOEMAKER,

Sole Agent for Blair County.

INTENSE EXCITEMENT!—McCORMICK'S NEW GOODS HAVE ARRIVED AND ARE NOW BEING OPENED FOR INSPECTION AND SALE.

"Halloo, neighbor, I'm here on the ground again. Perhaps you recollect when I, last year, asked you to hold my horse a moment and tell me where the CHEAP STORE was. But it is different now. It reminds me a little of the campaign of 1840, when Gen. Harrison was elected President. You have only to go with the crowd and you will have no difficulty in finding McCORMICK'S STORE. From the excitement down the valley, and the quantity of goods I see carried away, they must be selling off very rapidly and very cheap."

"You are right, my friend; I would say to you, sir, go ahead and your anticipations will be fully realized. He has a very large and well selected assortment of goods. He'll sell you a dress for *fifty cents* and give the trimmings into the bargain, I'm told, and all other goods in proportion."

"Good bye, neighbor, that's where I am going to buy my goods."

"That's right, and so should everybody else. Good bye."

GREAT DISCOVERY OF THE AGE IMPORTANT TO TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S TASTE RESTORATIVE TROCHES, *the great Substitute for Tobacco.*

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe.

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proves that it contains certain narcotic and poisonous properties, most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Tastic which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and and unpleasant habit of Tobacco Chewing.

These Troches of Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned to whom all orders should be addressed.
